

POCKET MEMO®
DIGITAL

9350

"TIME IS ON MY SIDE.
YES IT IS."

Philips Digital Pocket Memo® 9350

The 4-Position Switch has always been met with much acclaim from users of dictation equipment. The Digital Pocket Memo® 9350 now integrates this useful feature into a state-of-the-art digital device. Single-handed use allows you to continue working in the most familiar way. Workflow management capabilities enable your PC to identify different jobs easily and can dramatically speed up the turnaround of work. A range of other features makes the 9350 the most complete and reliable Pocket Memo® in anyone's memory.

PHILIPS

POCKET MEMO[®]

9350

Key Benefits

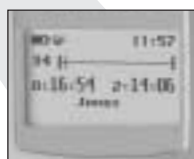

- **4-Position Switch** for single-handed use enables you to continue working in the most familiar way.
- **Exchangeable Multimedia/SD Card** for simple, efficient data transfer, and flexibility when on the move.
- **DSS file format:** This industry standard file format for digital recording devices offers minimum file sizes whilst maintaining crystal clear sound quality.
- **Workflow Management** capability enables your PC to clearly display file/job labels, author information or job type (2x 10 keywords).
- **End-of-Letter Index** to mark a dictation file as finished and to automatically generate a new file.
- **Priority Index** to mark a dictation file as urgent.
- **Voice-Activated Recording** for hands-free dictation.
- **Insert, overwrite and delete** functions allow full editing and continuity of dictation.
- **Internal Recharge option** enables rechargeable batteries to be replenished during use, when connected to the mains power supply (use only Philips rechargeable batteries 9144).
- **Backlit LC-Display** makes reading the display in poor light conditions easier.
- **Two Display settings** allowing selection which information should be displayed on the screen (numeric or graphical).
- **3 Level Adjustable Microphone Sensitivity** for conference or close range recordings.
- **Easy, automatic download** of dictations to your PC via USB connection (10 min. dictation in 1.5 sec.).
- **E-mail function** for manual and automatic dictation transfer.

Additional benefits

- **Transport Lock** avoids unintentional operation.
- **USB mass storage device:** The Multimedia Card can be used to store data as well as voice recordings.
- **Double-sided aluminum casing** for extra durability.
- **Volume control**
- **Two-color LED** indicator shows record/play status.
- **LC-Display** shows creation time/date, size of the dictation file, operating mode and battery status.
- **Warning tone** signals low/full memory and low battery to avoid dictation loss.
- **Standard Play/Long Play** modes of recording to suit the user's preferences.
- **Standard USB audio device** for direct dictation to your PC.
- **Power Save Mode:** Sleep mode after 4 minutes without dictation, switch off after 2 hours without dictation.

4-position switch for single-handed operation.

Easy to read LCD lets you know the machine's status at-a-glance.
